

**Object: Regulation (EC) No 1907/2006 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH)**

Update: March 2021

Dear customers,

according to REACH Regulation, BERICA CAVI SPA is qualified as a "downstream user", in particular as "articles producer" and "articles supplier" (see art.3.4 and 3.33), where according to the regulation itself, could be defined an article any product, component or semi-treated product.

We inform you herewith that:

- a. Products<sup>1</sup> supplied by BERICA CAVI SPA consisting in an assembly of several components that fall under the definition of articles (art.3.3). Such articles do not release any substance under normal or reasonably foreseeable conditions of use.
- b. BERICA CAVI SPA is not qualified as "producer" or "importer" of substances, as defined in art.3.9 and 3.11 of REACH Regulation; therefore it is not obliged to register the substances used in its production processes;
- c. BERICA CAVI SPA maintains active the necessary actions enabling the company to continually grant compliance with all the applicable dispositions of REACH Regulation. Specifically:
  - I. the management of communication channels with the supply chain with the aims of:
    1. updating of necessary information in reference to the evolution of the REACH regulation;
    2. to make sure that the specific use of BERICA CAVI SPA will be integrated in the registration dossier and eventually in the exposure scenario (if expected),
    3. to find alternative suppliers with the aim to guarantee the supplying continuity;
  - II. the research and development of alternative processes or substances should the regulation restrict or banish the use of some substances from the market, in order to guarantee to the BERICA CAVI SPA's customers the continuity, the quality and the performances of the supplied products;
  - III. the assessment of the substances used in the supplied products, in order to identify and communicate to you, according to the provisions of the art. 33 of REACH Regulation, any presence of substances classified as SVHC (Substances of Very High Concern) and included in the annex XIV or in the Candidate List and subsequent changes, if exceeding the concentration limits of 0,1% in weight/weight for each article that is part of the product.
- d. BERICA CAVI SPA is aware of the notification obligations to SCIP Database [Substances of Concern In articles as such or in complex objects (Products)] introduced, starting from 5<sup>th</sup> January 2021, by Directive 2018/851/EU for articles exceeding the SVHC concentration limits of 0,1% in weight/weight and undertakes to provide, through the table below, the SCIP notification number where required;

Reference of the supplied product	Substance name	CAS number	Information for safe use	SCIP notification number
/	/	/	/	/

The table below shows the results of our investigations, updated to the date of the present communication, about the possible presence in our articles of substances identified as SVHC or listed in the Annex XIV and Annex XVII of the regulation.

Topic	Family of products involved in the verification	Results
Verification of presence of substances identified as SVHC (candidate list – last update 19 <sup>th</sup> January 2021)	All families	No substances exceeding the concentration limit of 0,1% (w/w) <sup>2</sup>
Verification of presence of substances listed in the annex XIV	All families	No substances exceeding the concentration limit of 0,1% (w/w) <sup>2</sup>
